

## NextGen Auto (Touch-Free) Dispenser

Dispenser to suit 1.2 L pods

## Features

- Ecolab’s hand care dispensing system takes hand hygiene to a new level of convenience, versatility and performance.
- When you standardise with Ecolab’s new dispensing system, you get an attractive, consistent look throughout your facility, with a system that is easy to use and maintain.
- The touch-free system dispense liquids, gels and foams so you can easily change products without changing dispensers.
- Streamlines purchasing and inventory by dispensing liquid, gel and foam products.
- Large window provides clear product identification and easy monitoring of product usage.
- Proprietary packaging system for consistent, accurate dispensing.
- Mounting plate drill holes align with most currently available dispensers for simple conversion.
- Easy to access and load product.
- Flexible drip tray system can be easily added or removed from dispenser for ease of cleaning.
- Selectable dispenser output.
- Adjustable height settings allow for flexibility in mounting locations.
- Indicator light confirms proper mounting height and monitors battery life.
- Designed for fewer battery change outs and lower costs.
- Easily accessible battery pack requires no tools for access, making changes quick & simple.
- Color-coded labels differentiate soaps and sanitisers.
- Expiration date clearly visible through dispenser window.
- Flexible, collapsible pod package reduces waste.
